BOARDING

Choosing the right vacation spot is essential to your pet having the best experience.

Your pet will feel comfortable while in our facility. We will give your pet one-on-one interaction. Everyday your pet will receive personal attention, meals will be served according to your directions. Our facility is designed to be completely climate controlled. Cool and comfortable in the summer & warm & cozy in the winter.

We also take pride in the well-designed kennel facility. With music playing throughout the day for the animals to enjoy, then in the evening "Lights Out" for a peaceful comfortable night. In addition, we have our backyard play area we have an indoor area where dogs can be exercised and play off the leash out of the elements (see Pricing).

Modern yet inviting, our property is situated on 10 acres set right in the heart of the Pocono Mountains. We are conveniently located 3 miles from the Pocono Raceway.

Dogs will be individually leash walked, Yes we said walked. We believe that dogs enjoy themselves a lot more when they have tons of people time. We would be glad to answer any of your questions or concerns.

We provide boarding for dogs, cats, birds, ferrets and more.

Please ask us for a tour today.

Make your appointment online.

DAYCARE

Whether your pet is a lap dog or a high energy fetching machine, the doggie daycare program at Camp KCS is the perfect, worry-free alternative to leaving your canine pal at home. Rain or shine, your pet will enjoy a day of fun, attention, and companionship in a healthy and caring atmosphere.

It is our mission to make sure your pup receives a full day of exercise, socialization and most of all- an enriching day of canine fun.

Your dog can spend her day romping in the fully-enclosed, secure play yard, under the constant supervision of skilled, vigilant professionals.

Play groups are hand selected to match play styles and preferences. Dogs are grouped together for play sessions and sessions are closely monitored for appropriate and reciprocal play.

Scheduling play dates with other dogs is the very best way for your dog to learn and hone his communication skills with other dogs.

Grassy outdoor yard offers ample space to run and play

- Our indoor play arena is climate-controlled for comfortable play in all weather conditions
- Playgroups are supervised 100% of the time by our highly-trained staff
- Facebook post included showing your pet having fun.
- Check out our other doggie events, like our Summer Camp that incorporates afternoon hikes.

After a day at Camp KCS, your pet will go home relaxed and ready to rest by your side.

Special/Critical Care Boarding

When it comes to the well being of your pet, we know how important it is to find someone who can care for them like you would.

It is hard enough to be able to leave your pet but when your pet is a "Special Needs" pet, that makes the task even more difficult.

Many older pets and even some younger ones can develop medical issues and need medication for illnesses such as (just to name a few):

- Diabetes
- Thyroid Disease
- Kidney Failure
- Epilepsy
- Addison's Disease
- Cushing's Disease

As pets get older they also develop issues such as arthritis, sight & hearing reduction and/or loss.

There are a lot of pet care providers out there that do not have the specialized training & experience in how to work with & handle caring for these pets.

With our veterinary background we can monitor your pet throughout their stay. We have a very caring staff that has been trained to look for the signs associated with these medical situations.
