WELCOME TO THE CAMP KCS FAMILY

CELEBRATING 26 YEARS

2026

Introduction

Congratulations on your first step toward a wonderful experience for your pet.

We are delighted that you have chosen to learn more about our facility. We hope you will find this packet full of information. Hopefully we will be able to cover all aspects of our services.

It is our mission to give your pet the best boarding experience possible.

We are your full service pet boarding and supply service. Specializing in the safety, comfort and well being of your pet.

In addition, we offer camp programs, grooming, pet supplies and daycare for your convenience.

Your pet will feel comfortable while in our facility. We will

give your pet one-on-one interaction. As a daily regimen your pet will receive personal attention, meals will be served according to your directions, and as trained veterinary assistants we can monitor the health of your pet.

Our facility is designed to be completely climate controlled. Cool and comfortable in the summer and warm & cozy in the winter.

We also take pride in the well-designed kennel facility. With music playing throughout the day for the animals to enjoy, then in the evening "Lights Out" for a peaceful comfortable night.

We have an indoor area where dogs can be exercised and play off the leash and out of the elements, as well as a fenced-in backyard for outside play.

Modern yet inviting, set right in the heart of the Pocono Mountains. We are conven-

iently located 3 miles from the Pocono Raceway.

Our property is situated on 7 country acres. Dogs will be individually leash walked, Yes I said walked.

We believe that dogs enjoy themselves a lot more when they have tons of people time. We walk our guests three times a day to move around and have

interaction with us.

We would be glad to answer any of your questions or concerns.

If you have not done so, please ask us for a tour today.

We provide boarding for dogs, cats, birds, ferrets and more.

WHY CHOOSE CAMP KCS ?

"When They Can't Be Home, We Treat Them Like Our Own"

"A qualified staff that will cater to the specific needs of your pet"

"We will make your pets stay fun, friendly, comfortable & safe"

KAREN V. - CO-OWNER

Karen began her career journey in New York City, where she graduated high school and trained as a laboratory technician at Advanced Career Training. She gained valuable experience working for two years as a laboratory technician at Oradell Animal Hospital in New Jersey.

After relocating to Pennsylvania, Karen spent eight years as a veterinary technician at Creature Comforts Veterinary Service, deepening her expertise in animal care. With a lifelong passion for animals and their well-being, Karen eventually decided to start her own business dedicated to providing exceptional care for pets.

Karen brings immense value to the kennel with her extensive knowledge of animal behavior and her ability to quickly understand their needs. Drawing from her veterinary background, she expertly assesses pets' comfort and takes immediate action to ensure they feel at ease and cared for.

CHRIS W. - CO-OWNER

Chris began her journey in Philadelphia, exploring a variety of career paths before relocating to the Poconos, where she discovered her true passion—working with animals.

Starting with no prior experience in veterinary medicine, Chris joined Pocono Lake Animal Hospital, where she developed a strong foundation in animal care. After two years with Dr. Miller, she advanced her emergency medical skills at Creature Comforts Veterinary Service, dedicating six years to honing her expertise. Driven by her passion and growing knowledge, she eventually pursued opening her own business and continues to work alongside a veterinarian.

As a skilled veterinary technician with extensive experience, Chris ensures the well-being of every pet under her care. She has also earned her Certified Dog Trainer & Instructor (CDTI) credential from Penn Foster, enhancing her expertise in animal behavior. Chris works alongside her head trainer, Meg Irizarry, at Fulcrum Dog Training, a division of Camp KCS, where she helps guide training programs and supports clients in developing strong relationships with their pets.

At Camp KCS, Chris is instrumental in ensuring your pet's comfort, supervising their care, and managing the business's daily operations. Our dedicated team includes skilled members with experience as veterinary assistants, and we prioritize ongoing education and training to maintain the highest standard of care.

Pennsylvania Dog Law

Dog Law & Your Pet

All dogs three months of age or older must be licensed.

[Licenses](#) are issued by the
[County Treasurer](#)

All dogs must be under control and must not be allowed to run at large. Dogs are personal property, and owners are responsible for damages caused their dog.

It is illegal to abandon or attempt to abandon any dog.

Owners of dogs and cats 3 months of age or older are required to have a current rabies vaccination. It is illegal to interfere with an officer or employee of the Pennsylvania Department of Agriculture engaged in enforcement of dog laws.

What to expect on your first visit

Your first visit to the kennel is the most important and time consuming.

It is important to make sure that you have everything for your pet that the kennel will need to make your pets stay an enjoyable experience.

When you arrive, if you haven't already done so, you will be asked to fill out our information form. This form is very important, as it contains the necessary information on you and your pet. We can then enter the required information into our computer system.

Once entered we will confirm pertinent information on your pets stay.

You may visit your pet during his/her stay if you are visiting the area. These visits are limited to Taking you pet out for a while or visiting with them in the designated guest area as to not disturb the kennel counselors attending to our other guest.

Lastly, we ask that you inform us of any important information on your pet (i.e. habits, medical conditions etc.). These things can help us understand your pets better.

Daycare Program

Our daycare program is specifically designed with your pet in mind.

All dogs need energy release and daycare is a perfect way to do that. Whether you work long days or physically unable to run your dog this is perfect for you.

Let them come join the fun with our other friendly daycare visitors. Our facility has a outdoor

play area that is 80x60 for a romping good time. We also have an indoor play area for those bad weather days. Your dog must be dog friendly in order to play with other dogs.

But we also have playtime with the staff for those pups who just need an outlet but are not so friendly with other dogs.

Ask one of our team members for more information.

"Let your pet get in on the fun"

OTHER PROGRAMS WE OFFER

A Division of
Camp KCS, Inc

At Fulcrum Dog Training, we take the overall health and well-being of your dog very seriously. That means we not only focus on training or correcting behavior, but also on the emotional state of your dog, which, if happy and healthy, will actually make them better behaved!

First and most importantly, we believe that the use of aversive techniques, begins where education ends. We are committed to behavior modification and training techniques based on science and the least intrusive, minimally

aversive (LIMA) construct, as established by the IAABC (International Association of Animal Behavior Consultants) and the **Pet Professional Guild**.

Throughout our careers, we have had the opportunity to interact with countless dogs and observe their behavior. It has been our experience that while not all behaviors are undesirable, many dogs are given up or relinquished to shelters for inappropriate behaviors in the home.

Having worked closely with many trainers throughout our collective 40+ years in the animal welfare field, we

recognized the very real need for creating a dog training business which would serve to give dog owners the tools and guidance they need to live cohesively and happily with their dogs. We strive to educate dog owners on how to better understand and interpret their dog's behavior and then to train in a way that is not only extremely effective, but highly enjoyable for both you and your dog.
